

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (original): A pressure sensitive adhesive composition
which comprises the following components (A), (B) and (C):
(A) An oxyalkylene polymer containing 0.3 to 0.7 equivalent of a hydrolyzable silyl group in each molecule and having a number average molecular weight of 15,000 to 100,000 (hereinafter, “hydrolyzable silyl group-containing polymer”);
(B) A tackifier resin;
(C) A curing catalyst.
2. (original): The pressure sensitive adhesive composition according to Claim 1
wherein the Mw/Mn (molecular weight distribution) of the hydrolyzable silyl group-containing polymer (A) is not wider than 1.6.
3. (currently amended): The pressure sensitive adhesive composition according to Claim 1 ~~or 2~~
wherein the compounding ratio of the tackifier resin (B) is 5 to 150 parts by weight per 100 parts by weight the polymer (A).

4. (currently amended): The pressure sensitive adhesive composition according to Claim 1
~~any one of Claims 1 to 3~~

wherein the hydrolyzable silyl group in the hydrolyzable silyl group-containing polymer (A) is represented by the following general formula (I);

(wherein, R^2 represents a substituted or unsubstituted monovalent organic group containing 1 to 20 carbon atoms, X represents a hydrolyzable group, and a represents 1, 2 or 3.)

5. (new): The pressure sensitive adhesive composition according to Claim 2

wherein the compounding ratio of the tackifier resin (B) is 5 to 150 parts by weight per 100 parts by weight the polymer (A).

6. (new): The pressure sensitive adhesive composition according to Claim 2

wherein the hydrolyzable silyl group in the hydrolyzable silyl group-containing polymer (A) is represented by the following general formula (I);

(wherein, R^2 represents a substituted or unsubstituted monovalent organic group containing 1 to 20 carbon atoms, X represents a hydrolyzable group, and a represents 1, 2 or 3.)

7. (new): The pressure sensitive adhesive composition according to Claim 3

Preliminary Amendment
Appln. No.: National Stage of PCT/JP2005/001025
Attorney Docket No. Q95835

wherein the hydrolyzable silyl group in the hydrolyzable silyl group-containing polymer (A) is represented by the following general formula (I);

(wherein, R^2 represents a substituted or unsubstituted monovalent organic group containing 1 to 20 carbon atoms, X represents a hydrolyzable group, and a represents 1, 2 or 3.)
